

# Deque Systems Inc. Accessibility Conformance Report International Edition

(Based on VPAT<sup>®</sup> Version 2.5)

## Name of Product/Version:

axe Reports v2.0.3

## Report Date:

December 4, 2024

## Product Description:

axe Reports is an enterprise reporting interface designed to help you understand your accessibility issues and trends. axe Reports focuses on aggregate metric reporting and trending, and providing the optimal way to visualize data from Deque products. This includes both outcomes accessibility and usage data.

## Contact information:

Deque Systems,  
[info@deque.com](mailto:info@deque.com)

## Notes:

This report was created by Deque Systems Inc. upon completion of an accessibility evaluation performed in November 2024.

---

“Voluntary Product Accessibility Template” and “VPAT” are registered service marks of the Information Technology Industry Council (ITI)

## Evaluation Methods Used:

A combination of automated and manual testing techniques was employed for the accessibility assessment

- Manual assessment was performed using Chrome 131.0.6778.70 on Windows 11 and included exclusive use of the keyboard.
- Automated tools used included axe Auditor and the axe DevTools browser extension using axe-core version 4.10.0.
- Assistive technologies employed included NVDA v.2024.2.

## Scope of Evaluation

The following pages were evaluated as part of the assessment on which this report is based:

- Dashboard - Score Trend
- Dashboard - Accessibility Health
- Dashboard - Issues by Period
- Usage by Month - Show by Product Component
- Usage by Month - Show by Department
- Scanned URLs
- Manage Scripts
- Manage Projects
- Manage Test Cases
- Scan Data
- Audit Data
- Dimensions
- Dimensions - Step 1: Add Dimensions
- Dimensions - Step 2: Create Subdimensions
- Dimensions - Step 3: Assignments
- Dimensions - Step 4: Review
- Dimensions - Step 5: Complete
- Select an Organization
- Manage Organization

In addition to the pages listed above, the following components that appear on multiple pages were tested as part of the assessment:

- Header
- Footer
- Left Navigation
- Accessibility Health - Issue Categories
- Export
- Add New Scripts
- Edit Scripts
- Add New Organization
- Filters
- Move Project - Step 1: Select project
- Move Project - Step 2: Select organization
- Move Project - Step 3: Review
- Edit Projects
- Dimensions - Assign Projects

## Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

| Standard/Guideline                                                                                                                                                                                                   | Included In Report                                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| <a href="#">Web Content Accessibility Guidelines 2.0</a>                                                                                                                                                             | Level A (Yes)<br>Level AA (Yes)<br>Level AAA (No) |
| <a href="#">Web Content Accessibility Guidelines 2.1</a>                                                                                                                                                             | Level A (Yes)<br>Level AA (Yes)<br>Level AAA (No) |
| <a href="#">Web Content Accessibility Guidelines 2.2</a>                                                                                                                                                             | Level A (Yes)<br>Level AA (Yes)<br>Level AAA (No) |
| <a href="#">Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018</a>                                                                                                              | (Yes)                                             |
| <a href="#">EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11)</a> AND<br><a href="#">EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)</a> | (Yes)                                             |

# Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can be used only in WCAG Level AAA criteria.

# WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- EN 301 549: Chapter 9 - Web, Sections 10.1-10.4 of Chapter 10 - Non-Web documents, and Sections 11.1-11.4 and 11.8.2 of Chapter 11 - Non-Web Software (open and closed functionality), and Sections 12.1.2 and 12.2.4 of Chapter 12 – Documentation
- Revised Section 508: Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing, and Chapter 6 – 602.3 Electronic Support Documentation.

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, the criteria are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.2 Conformance Requirements](#).

## Table 1: Success Criteria, Level A

Notes:

| Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Conformance Level       | Remarks and Explanations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <a href="#">1.1.1 Non-text Content</a> (Level A)<br>Also applies to:<br>EN 301 549 Criteria <ul style="list-style-type: none"><li>• 9.1.1.1 (Web)</li><li>• 10.1.1.1 (Non-web document)</li><li>• 11.1.1.1.1 (Open Functionality Software)</li><li>• 11.1.1.1.2 (Closed Functionality Software)</li><li>• 11.8.2 (Authoring Tool)</li><li>• 12.1.2 (Product Docs)</li><li>• 12.2.4 (Support Docs)</li></ul> Revised Section 508 <ul style="list-style-type: none"><li>• 501 (Web)(Software)</li><li>• 504.2 (Authoring Tool)</li><li>• 602.3 (Support Docs)</li></ul> | Web: Partially Supports | Web: Most non-text content has text alternatives or a text alternate that serves an equivalent purpose. The following exceptions exist: <ul style="list-style-type: none"><li>• An image does not have a text alternative, so people who are blind and/or use a screen reader will not be able to access the information available in the image and if it is an active image, will not understand its function. This occurs on the following pages: Audit Data and Manage Test Cases.</li><li>• A complex image has a short text alternative that is not meaningful, so people who are blind and/or use a screen reader may not be able to understand the information available in the image. This occurs on the following page: Dashboard - Accessibility Health.</li></ul> |

| Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Conformance Level   | Remarks and Explanations                           |

| 302.9 With Limited Language, Cognitive, and Learning Abilities | Partially Supports | <p>Most functionality is usable by people with limited language, cognitive, and learning abilities. People with cognitive disabilities have varying needs for features that allow them to adapt content and work with assistive technology.</p> <p>Exceptions are noted in:</p> <ul style="list-style-type: none"> <li>• 1.1.1 Non-Text Content</li> <li>• 1.3.1 Info and Relationships</li> <li>• 2.1.1 Keyboard</li> <li>• 2.4.3 Focus Order</li> </ul> |

## Chapter 4: [Hardware](#)

Notes: The ICT covered by this report is not hardware. As such, the requirements of this chapter do not apply.

## Chapter 5: [Software](#)

Notes:

| Criteria                                                       | Conformance Level                    | Remarks and Explanations                                                                                                                                                                          |
|----------------------------------------------------------------|--------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 501.1 Scope – Incorporation of WCAG 2.0 AA                     | See <a href="#">WCAG 2.2</a> section | See information in WCAG 2.2 section                                                                                                                                                               |
| <a href="#">502 Interoperability with Assistive Technology</a> | Heading cell – no response required  | Heading cell – no response required                                                                                                                                                               |
| 502.2.1 User Control of Accessibility Features                 | Not Applicable                       | axe Reports is not platform software, so this requirement does not apply.                                                                                                                         |
| 502.2.2 No Disruption of Accessibility Features                | Supports                             | axe Reports does not disrupt platform (browser and OS) features that are defined in the platform documentation as accessibility features.                                                         |
| <b>502.3 Accessibility Services</b>                            | Heading cell – no response required  | Heading cell – no response required                                                                                                                                                               |
| 502.3.1 Object Information                                     | Supports                             | The role, state(s), properties, boundary, name, and description of all the objects can be programmatically determined, so those attributes can be perceived and conveyed by assistive technology. |

| Criteria                                   | Conformance Level | Remarks and Explanations                                                                                                                                                                                                                                 |
|--------------------------------------------|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 502.3.2 Modification of Object Information | Supports          | When objects that allow the user to set their respective properties and/or state are present, the act of setting a property or state is available programmatically, so that it can be perceived and performed using assistive technology.                |
| 502.3.3 Row, Column, and Headers           | Supports          | When a data table is present in axe Reports, all information in the data cells and the row and/or column headers associated with each data cell are available programmatically, so they can be perceived and conveyed by assistive technology.           |
| 502.3.4 Values                             | Supports          | When objects are present that have a current value or have a set or range of values associated with the object, the value(s) is available programmatically, so it can be perceived and conveyed by assistive technology.                                 |
| 502.3.5 Modification of Values             | Supports          | When an object is present that allows the user to set or modify its value, the act of setting a value is available programmatically, so that it can be perceived and performed using assistive technology.                                               |
| 502.3.6 Label Relationships                | Supports          | When a page contains an element that acts as a label for another element or has an element that is labeled by another element, each labeling relationship is programmatically determinable, so it can be perceived and conveyed by assistive technology. |

| Criteria                           | Conformance Level  | Remarks and Explanations                                                                                                                                                                                                                                                                       |
|------------------------------------|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 502.3.7 Hierarchical Relationships | Partially Supports | <p>For most elements that have a parent-child relationship, those relationships are programmatically determinable, so they can be perceived by assistive technology. Exceptions are noted in:</p> <ul style="list-style-type: none"> <li>1.3.1 Info and Relationships</li> </ul>               |
| 502.3.8 Text                       | Supports           | All text, text attributes (such as whether text is static or editable), and text boundaries (such as when text receives visual focus) are programmatically determinable, so they can be perceived and conveyed by assistive technology.                                                        |
| 502.3.9 Modification of Text       | Supports           | When text can be set by the user (such as by typing in an input field), the act of adding or modifying text is available programmatically, so that it can be perceived and performed using assistive technology.                                                                               |
| 502.3.10 List of Actions           | Supports           | When one or more actions may be performed on an element, all of those actions are programmatically determinable, so that each action can be perceived and conveyed by assistive technology.                                                                                                    |
| 502.3.11 Actions on Objects        | Partially Supports | <p>For most of the elements on which one or more actions may be performed, all of those actions are available programmatically, so that each action can be performed using assistive technology. Exceptions are noted in:</p> <ul style="list-style-type: none"> <li>2.1.1 Keyboard</li> </ul> |

| Criteria                                                                            | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                               |
|-------------------------------------------------------------------------------------|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 502.3.12 Focus Cursor                                                               | Supports                            | On all pages, the position and content of the focus indicator, text insertion point, and/or text selector are programmatically determinable, so that focus position and content can be perceived and conveyed by assistive technology. |
| 502.3.13 Modification of Focus Cursor                                               | Supports (Not Applicable)           | axe Reports does not allow modification of the focus indicator, text insertion point, or text selector indicator.                                                                                                                      |
| 502.3.14 Event Notification                                                         | Partially Supports                  | In most cases, status messages relevant to user interactions are available to, and presented by, assistive technology. Exceptions are noted in: <ul style="list-style-type: none"> <li>4.1.3 Status Messages</li> </ul>                |
| 502.4 Platform Accessibility Features                                               | Not Applicable                      | The website is not platform software, so this requirement does not apply.                                                                                                                                                              |
| <b>503 Applications</b>                                                             | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                    |
| 503.2 User Preferences                                                              | Supports                            | axe Reports allows users to set or modify color, contrast, font type and size, and focus cursor.                                                                                                                                       |
| 503.3 Alternative User Interfaces                                                   | Not Applicable                      | axe Reports does not offer an alternative user interface.                                                                                                                                                                              |
| <b>503.4 User Controls for Captions and Audio Description</b>                       | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                    |
| 503.4.1 Caption Controls                                                            | Not Applicable                      | axe Reports does not contain media with an audio component that has closed captions.                                                                                                                                                   |
| 503.4.2 Audio Description Controls                                                  | Not Applicable                      | axe Reports does not contain media with a video component that offers audio descriptions.                                                                                                                                              |
| <b>504 Authoring Tools</b>                                                          | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                    |
| 504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)   | Not Applicable                      | axe Reports is not an authoring tool.                                                                                                                                                                                                  |
| 504.2.1 Preservation of Information Provided for Accessibility in Format Conversion | Not Applicable                      | axe Reports is not an authoring tool.                                                                                                                                                                                                  |
| 504.2.2 PDF Export                                                                  | Not Applicable                      | axe Reports is not an authoring tool.                                                                                                                                                                                                  |

| Criteria        | Conformance Level | Remarks and Explanations              |
|-----------------|-------------------|---------------------------------------|
| 504.3 Prompts   | Not Applicable    | axe Reports is not an authoring tool. |
| 504.4 Templates | Not Applicable    | axe Reports is not an authoring tool. |

## Chapter 6: [Support Documentation and Services](#)

Notes:

| Criteria                                                         | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>601.1 Scope</b>                                               | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                                                                                      |
| <b><a href="#">602 Support Documentation</a></b>                 | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                                                                                      |
| 602.2 Accessibility and Compatibility Features                   | Not Applicable                      | Documentation is provided for axe Reports; however, as a web application, it does not have accessibility features beyond those features offered by the web browser that facilitate accessibility or otherwise make it compatible with assistive technology.                                              |
| 602.3 Electronic Support Documentation                           | Supports                            | Support documentation for axe Reports is available in digital formats that conform to most WCAG 2.0 success criteria, so most of the documentation and the information it contains are accessible to people with disabilities. Exceptions are noted in the <a href="#">Deque Product Docs Site ACR</a> . |
| 602.4 Alternate Formats for Non-Electronic Support Documentation | Not Applicable                      | Documentation for axe Reports is not provided in non-electronic formats.                                                                                                                                                                                                                                 |
| <b><a href="#">603 Support Services</a></b>                      | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                                                                                      |
| 603.2 Information on Accessibility and Compatibility Features    | Supports                            | Support services provide information on axe Reports' accessibility features or on features that make it compatible with assistive technology, so people with disabilities will know these features exist and how to use them.                                                                            |

| Criteria                                   | Conformance Level | Remarks and Explanations                                                                                                                                                                                |
|--------------------------------------------|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 603.3 Accommodation of Communication Needs | Supports          | Support services for axe Reports provide accommodations to support people with communication-related disabilities, so people with communication-related disabilities can access needed product support. |

# EN 301 549 Report

Notes:

## Chapter 4: [Functional Performance Statements \(FPS\)](#)

Notes:

| Criteria                                        | Conformance Level  | Remarks and Explanations                                                                                                                                                                                                                                                                              |
|-------------------------------------------------|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.2.1 Usage without vision                      | Partially Supports | Most functionality is usable without vision. Exceptions are noted in: <ul style="list-style-type: none"><li>• 1.1.1 Non-Text Content</li><li>• 1.3.1 Info and Relationships</li><li>• 2.1.1 Keyboard</li><li>• 2.4.3 Focus Order</li><li>• 4.1.3 Status Messages</li></ul>                            |
| 4.2.2 Usage with limited vision                 | Partially Supports | Most functionality is usable with limited vision. Exceptions are noted in: <ul style="list-style-type: none"><li>• 1.1.1 Non-Text Content</li><li>• 1.3.1 Info and Relationships</li><li>• 1.4.10 Reflow</li><li>• 1.4.12 Text Spacing</li><li>• 2.1.1 Keyboard</li><li>• 2.4.3 Focus Order</li></ul> |
| 4.2.3 Usage without perception of colour        | Supports           | All functionality is usable without perception of color.                                                                                                                                                                                                                                              |
| 4.2.4 Usage without hearing                     | Supports           | axe Reports does not require the use of hearing.                                                                                                                                                                                                                                                      |
| 4.2.5 Usage with limited hearing                | Supports           | axe Reports does not require the use of hearing.                                                                                                                                                                                                                                                      |
| 4.2.6 Usage with no or limited vocal capability | Not Applicable     | axe Reports does not require the use of speech or other vocal output.                                                                                                                                                                                                                                 |

| Criteria                                                  | Conformance Level         | Remarks and Explanations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.2.7 Usage with limited manipulation or strength         | Partially Supports        | <p>Most functionality is usable by people with limited manipulation and does not require manipulation, simultaneous action, or hand strength. Exceptions are noted in:</p> <ul style="list-style-type: none"> <li>• 2.1.1 Keyboard</li> <li>• 2.4.3 Focus Order</li> <li>• 2.5.3 Label in Name</li> </ul>                                                                                                                                                                                                                                                                  |
| 4.2.8 Usage with limited reach                            | Supports                  | All functionality is usable by people with limited reach.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4.2.9 Minimize photosensitive seizure triggers            | Supports                  | All functionality may be operated in a mode that minimizes the potential for triggering photosensitive seizures.                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4.2.10 Usage with limited cognition, language or learning | Partially Supports        | <p>Most functionality is usable by people with limited language, cognitive, and learning abilities. People with cognitive disabilities have varying needs for features that allow them to adapt content and work with assistive technology. Exceptions are noted in:</p> <ul style="list-style-type: none"> <li>• 1.1.1 Non-Text Content</li> <li>• 1.3.1 Info and Relationships</li> <li>• 1.4.10 Reflow</li> <li>• 1.4.12 Text Spacing</li> <li>• 2.1.1 Keyboard</li> <li>• 2.4.3 Focus Order</li> <li>• 2.5.3 Label in Name</li> <li>• 4.1.3 Status Messages</li> </ul> |
| 4.2.11 Privacy                                            | Supports (Not Applicable) | axe Reports does not provide any specific accessibility features that impact the user's privacy.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Chapter [5: Generic Requirements](#)

Notes:

| Criteria                                          | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                   |
|---------------------------------------------------|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>5.1 Closed functionality</b>                   | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                        |
| <b>5.1.2 General</b>                              | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                        |
| <b>5.1.2.1 Closed functionality</b>               | See 5.2 through 13                  | See information in 5.2 through 13                                                                                                                                                                                          |
| <b>5.1.2.2 Assistive technology</b>               | See 5.1.3 through 5.1.6             | See information in 5.1.3 through 5.1.6                                                                                                                                                                                     |
| <b>5.1.3 Non-visual access</b>                    | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                        |
| 5.1.3.1 Audio output of visual information        | Supports (Not Applicable)           | axe Reports does not have closed functionality and allows the use of an outside or add-on screen reader to provide audio output of visual information.                                                                     |
| 5.1.3.2 Auditory output delivery including speech | Supports (Not Applicable)           | axe Reports does not have closed functionality and allows auditory output (including speech) to be conveyed by outside mechanisms (including speakers, handsets, and earbuds).                                             |
| 5.1.3.3 Auditory output correlation               | Supports (Not Applicable)           | axe Reports does not have closed functionality, so audio information is conveyed using outside or add-on software and/or hardware.                                                                                         |
| 5.1.3.4 Speech output user control                | Supports (Not Applicable)           | axe Reports does not have closed functionality and allows auditory output (including speech) to be conveyed by outside software (e.g., screen readers) and outside mechanisms (including speakers, handsets, and earbuds). |
| 5.1.3.5 Speech output automatic interruption      | Supports (Not Applicable)           | axe Reports does not have closed functionality and allows auditory output (including speech) to be conveyed by outside software (e.g., screen readers) outside mechanisms (including speakers, handsets, and earbuds).     |

| Criteria                                    | Conformance Level         | Remarks and Explanations                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1.3.6 Speech output for non-text content  | Supports (Not Applicable) | axe Reports does not have closed functionality and allows auditory output (including the announcement of text alternatives for images) to be conveyed by outside software (e.g., screen readers) and outside mechanisms (including speakers, handsets, and earbuds).                                                                                                      |
| 5.1.3.7 Speech output for video information | Supports (Not Applicable) | axe Reports does not have closed functionality, and pre-recorded video content is not needed to enable the use of closed functions. Also, the product allows auditory output (including audio description of visual information in a video) to be conveyed by outside software (e.g., screen readers) and outside mechanisms (including speakers, handsets, and earbuds). |
| 5.1.3.8 Masked entry                        | Supports (Not Applicable) | axe Reports does not have closed functionality, so any auditory output of masked characters is controlled and conveyed by outside software (e.g., screen readers) and outside mechanisms (including speakers, handsets, and earbuds).                                                                                                                                     |
| 5.1.3.9 Private access to personal data     | Supports (Not Applicable) | axe Reports does not have closed functionality, so any auditory output of information considered to be private is controlled and conveyed by outside software (e.g., screen readers) and outside mechanisms (including speakers, handsets, and earbuds).                                                                                                                  |
| 5.1.3.10 Non-interfering audio output       | Supports (Not Applicable) | axe Reports does not have closed functionality, so the initiation of any auditory output that may interfere with other audio is controlled by outside software (e.g., browsers, operating systems, or screen readers).                                                                                                                                                    |

| Criteria                                 | Conformance Level         | Remarks and Explanations                                                                                                                                                                                                                                 |
|------------------------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1.3.11 Private listening volume        | Supports (Not Applicable) | axe Reports does not have closed functionality, so control of the volume of auditory output is controlled by outside software (e.g., browsers, operating systems, or screen readers) and outside mechanisms (including speakers, handsets, and earbuds). |
| 5.1.3.12 Speaker volume                  | Supports (Not Applicable) | axe Reports does not have closed functionality, so control of the volume of auditory output is controlled by outside software (e.g., browsers, operating systems, or screen readers) and outside mechanisms (including speakers, handsets, and earbuds). |
| 5.1.3.13 Volume reset                    | Supports (Not Applicable) | axe Reports does not have closed functionality, so control of the volume of auditory output is controlled by outside software (e.g., browsers, operating systems, or screen readers) and outside mechanisms (including speakers, handsets, and earbuds). |
| 5.1.3.14 Spoken languages                | Supports (Not Applicable) | axe Reports does not have closed functionality, so the assignment of a particular language to speech output is controlled by outside software (e.g., browsers, operating systems, or screen readers).                                                    |
| 5.1.3.15 Non-visual error identification | Supports (Not Applicable) | axe Reports does not have closed functionality, so speech output to identify and/or describe an error is controlled by outside software (e.g., browsers, operating systems, or screen readers).                                                          |

| Criteria                                                        | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                        |
|-----------------------------------------------------------------|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.1.3.16 Receipts, tickets, and transactional outputs           | Supports (Not Applicable)           | axe Reports does not have closed functionality, so speech output to provide information necessary to complete or verify a transaction is controlled by outside software (e.g., browsers, operating systems, or screen readers). |
| 5.1.4 Functionality closed to text enlargement                  | Supports (Not Applicable)           | axe Reports does not have closed functionality, and all text and images of text can be enlarged by the operating system or browser.                                                                                             |
| 5.1.5 Visual output for auditory information                    | Supports (Not Applicable)           | axe Reports does not have closed functionality, and auditory information is not needed to enable the use of closed functions.                                                                                                   |
| <b>5.1.6 Operation without keyboard interface</b>               | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                             |
| <b>5.1.6.1 Closed functionality</b>                             | See 5.1.3.1 through 5.1.3.16        | See information in 5.1.3.1 through 5.1.3.16                                                                                                                                                                                     |
| 5.1.6.2 Input focus                                             | Supports (Not Applicable)           | axe Reports is not closed to keyboards or keyboard interfaces.                                                                                                                                                                  |
| 5.1.7 Access without speech                                     | Supports (Not Applicable)           | axe Reports does not require speech to enable the use of any functionality.                                                                                                                                                     |
| 5.2 Activation of accessibility features                        | Supports                            | Any documented accessibility feature that meets a specific need can be activated without relying on any motor or sensory input related to that need.                                                                            |
| 5.3 Biometrics                                                  | Supports (Not Applicable)           | axe Reports does not use biological characteristics for identification or to control any functionality.                                                                                                                         |
| 5.4 Preservation of accessibility information during conversion | Supports (Not Applicable)           | axe Reports does not have functionality that converts information or communication from one format to another.                                                                                                                  |
| <b>5.5 Operable parts</b>                                       | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                             |
| 5.5.1 Means of operation                                        | Supports (Not Applicable)           | axe Reports is a web application and has no physical parts.                                                                                                                                                                     |

| Criteria                              | Conformance Level                   | Remarks and Explanations                                                                                                                                     |
|---------------------------------------|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5.5.2 Operable parts discernibility   | Supports (Not Applicable)           | axe Reports is a web application and has no physical parts.                                                                                                  |
| <b>5.6 Locking or toggle controls</b> | Heading cell – no response required | Heading cell – no response required                                                                                                                          |
| 5.6.1 Tactile or auditory status      | Supports (Not Applicable)           | axe Reports has no physical locking or toggle controls.                                                                                                      |
| 5.6.2 Visual status                   | Supports (Not Applicable)           | axe Reports has no physical locking or toggle controls.                                                                                                      |
| 5.7 Key repeat                        | Supports (Not Applicable)           | axe Reports has no physical keyboard or keypad, so it has no key repeat function.                                                                            |
| 5.8 Double-strike key acceptance      | Supports (Not Applicable)           | axe Reports has no physical keyboard or keypad, so it has no functionality related to accepting identical keystrokes that occur within a specific timeframe. |
| 5.9 Simultaneous user actions         | Supports (Not Applicable)           | axe Reports has no functionality requiring simultaneous actions (such as having to press multiple keys at the same time) with no alternative.                |

## Chapter [6: ICT with Two-Way Voice Communication](#)

Notes: The ICT covered by this report does not have any functionality that supports two-way communication. As such, the requirements of this chapter do not apply.

## Chapter [7: ICT with Video Capabilities](#)

Notes: The ICT covered by this report does not have any functionality that supports video capabilities. As such, the requirements of this chapter do not apply.

## Chapter [8: Hardware](#)

Notes: The ICT covered by this report is not hardware. As such, the requirements of this chapter do not apply.

## Chapter [9: Web](#) (see [WCAG 2.2 section](#))

Notes: The ICT covered by this report is a web application. As such, its accessibility requirements are covered in the [WCAG 2.2](#) section.

## Chapter [10: Non-Web Documents](#)

Notes:

| Criteria                          | Conformance Level                    | Remarks and Explanations                                                                                           |

| <b>10.0 General (informative)</b> | Heading cell – no response required  | Heading cell – no response required                                                                                |
| 10.1.1.1 through 10.4.1.3         | See <a href="#">WCAG 2.2</a> section | See information in WCAG 2.2 section                                                                                |
| 10.5 Caption positioning          | Not Applicable                       | Any standalone documents that may be downloaded from axe Reports do not contain video that has synchronized audio. |
| 10.6 Audio description timing     | Not Applicable                       | Any standalone documents that may be downloaded from axe Reports do not contain video that has synchronized audio. |

## Chapter [11: Software](#)

Notes: The ICT covered by this report is a web application, and it is not an authoring tool. As such, its accessibility requirements are covered in Chapter 9 and by reference the [WCAG 2.2](#) section. Thus, the requirements of this chapter do not apply.

## Chapter [12: Documentation and Support Services](#)

Notes:

| Criteria                                        | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                                                    |
|-------------------------------------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>12.1 Product documentation</b>               | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                                         |
| 12.1.1 Accessibility and compatibility features | Not Applicable                      | Documentation is provided for axe Reports; however, as a web application, it does not have accessibility features beyond those features offered by the web browser that facilitate accessibility or otherwise make it compatible with assistive technology. |

| Criteria                                                       | Conformance Level                   | Remarks and Explanations                                                                                                                                                                                                                                                                                                                     |
|----------------------------------------------------------------|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12.1.2 Accessible documentation                                | Supports                            | Documentation provided for axe Reports is available in digital formats that conform to most WCAG 2.1 success criteria, so most of the documentation and the information it contains are accessible to people with disabilities. Exceptions are noted in a separate report that is available at <a href="#">Deque Product Docs Site ACR</a> . |
| <b>12.2 Support Services</b>                                   | Heading cell – no response required | Heading cell – no response required                                                                                                                                                                                                                                                                                                          |
| 12.2.2 Information on accessibility and compatibility features | Supports                            | Support services provide information on axe Reports' accessibility features or on features that make it compatible with assistive technology, so people with disabilities will know these features exist and how to use them.                                                                                                                |
| 12.2.3 Effective communication                                 | Supports                            | Support services for axe Reports provide accommodations to support people with communication-related disabilities, so people with communication-related disabilities can access needed product support.                                                                                                                                      |
| 12.2.4 Accessible documentation                                | Supports                            | Documentation provided by support services for axe Reports is available in digital formats that conform to most WCAG 2.1 success criteria, so most of the documentation and the information it contains are accessible to people with disabilities. Exceptions are noted in the <a href="#">Deque Product Docs Site ACR</a> .                |

## Chapter [13: ICT Providing Relay or Emergency Service Access](#)

Notes: The ICT covered by this report does have any functionality that supports two-way communication, including the provision of relay services or access to emergency services. As such, the requirements of this chapter do not apply.
